

MASTERFLEX®

ELEGANT MINIMALISM OF THE PATTERN,
MAXIMUM PRIVACY

MASTERFLEX®

A harmonious trio of discretion, subtlety, and uniqueness

MASTERFLEX® - SEDUCTIVE DEPTH OF DESIGN

The unique, geometrical pattern of the MASTERFLEX® translucent glass creates an effect of light refraction resembling the shape of a star. This optical illusion enchants the interior, adding intimacy and unique lightness to the entire space. The universal texture of the glass is perfectly in line with numerous arrangements, the modern as well as the classic ones.

Minimalism and uniqueness of the patterned glass MASTERFLEX® for interiors with character.

PRIVACY WITH A TINGE OF AVANT-GARDE

MASTERFLEX® patterned glass guarantees an optimal level of privacy, securing discrete protection against prying glances. Besides the guarantee of intimacy, MASTERFLEX® allows perfect illumination of the interior, introducing a spectacular game of light inside.

INSPIRING HARMONY OF DESIGN

The original appearance of glass allows to arrange interiors freely – from the timeless classic to the industrial minimalism. This sophisticated design constitutes an interesting addition to:

- partition walls,
- door glazing or filling,
- furniture elements and shelves,
- balustrades,
- shower enclosures,
- wall cladding.

MASTERFLEX® stands for personalised space consistent with individual preferences.

RANGE

MASTERFLEX® glass is available in the following sizes:

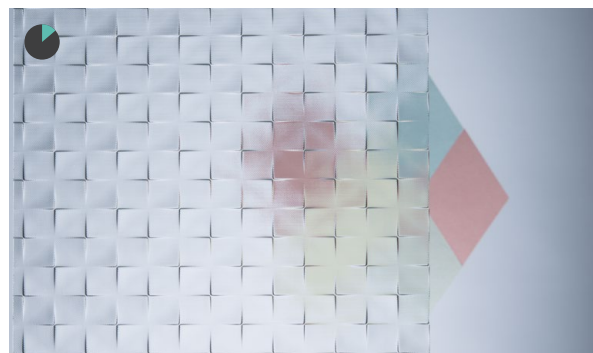

- 4mm, 6mm, 8mm – 2000mmx3210mm
- 8mm – 2040mmx3300mm

PROCESSING OPTIONS

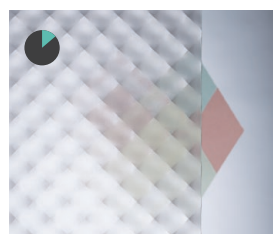

MASTERFLEX® glass can be bent, tempered, laminated, and enamelled.

MASTERFLEX® JOINS THE MASTERGLASS® FAMILY

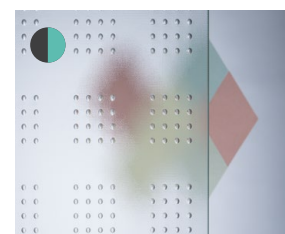

The original aesthetics of the MASTERGLASS® range has been appreciated by architects and designers for years now. Modern patterns, sophisticated styles, avant-garde textures guaranteeing maximum privacy and allowing to obtain the effect of dispersed light – all this makes MASTERGLASS® unique in its kind. Additionally, high production precision of MASTERGLASS® products allows to perfectly highlight the subtle ornament on the glass pane – one side of the glass is embossed, whereas the other remains smooth.
